

BLM: Slope of a Line

Student Name: _____

Do you live in a building with a sloped roof? Have you ever climbed a steep hill or rolled down a wheel chair ramp? Do you watch the rate of change in the dollar or in oil prices? Then you know about slope.

Each of the coloured lines below has a slope, which is indicated by a numerical value. Fill in the corresponding slope for each line from the following list of slopes.

4 $\frac{1}{2}$ $\frac{1}{6}$ 1 $\frac{4}{3}$
