

BLM 2: Relay Task

Student Name: _____

You are $\frac{1}{5}$ of a record winning 5-person relay team.

Each member is required to run equal parts of the race.

You are the first person running the race and have only completed $\frac{3}{4}$ of your part.

How much of the total race have you completed?

How much of the race is left to be completed?

Use a model to solve the problem.
