

# EQUALS GAME

## OPERATION E

Add and subtract fractions with unlike denominators  
(e.g., 2 and 7) using models and symbols

In this picture, students added multiple fractions to show an equivalent sum to  $2 \times 1$ .

$$2 \times 1 = \frac{1}{2} + \frac{1}{2} + \frac{5}{10} + \frac{3}{6}$$
